

Pace Arrow®

FLEETWOOD® RV

It's what legends are made of.

When was the last time you saw a legend? Well, feast your eyes on Pace Arrow and you'll get a taste of what traveling in legendary comfort and style is like, from the Fleetwood motor home that started it all. From its modern Euro bus design to every facet of its vastly upgraded interiors and features, Pace Arrow was built for the experienced traveler. It comes fully equipped with all the state-of-the-art appeal and convenience required for short getaways or long-term vacations, without missing a hint of the finer things along the way. Pace Arrow also hits the mark in long-lasting value with present-day affordability, offering first-class coach quality and an amazing list of features for a motor home in this price range. Pace Arrow was the very first Fleetwood motor home and is easily one of the most recognizable brands on the market—and on the road—today. So, come on, board the legendary Pace Arrow. Legends like this don't come along every day.

2000 Pace Arrow Floor Plans

30-amp Service
Wall Switches
Dual 6V/Deep Cycle 218-amp House Batteries
VCR Ready

EXTERIOR STORAGE

Insulated Luggage Doors—Fiberglass w/Aluminum Frame
Single-Paddle/Metal Latches
Continuous One-Piece Bulb Seal
Hidden, Stainless Steel Latch Rods—One Per Door
Lighted Compartments
Carpeted Luggage Compartment/Fiberglass in
EZ Store Pass-Through Storage
Steel Seal Frames

Product information and photography included in this brochure were as accurate as possible at the time of publication. For the most current product information and changes, please visit our Website at www.fleetwood.com or contact your local Fleetwood dealer. Subsequent refinements may be evident in the actual product. Prices and specifications are subject to change without notice. All fuel and liquid capacities are approximate and dimensions are nominal. Fleetwood has designed its motor home brands to provide a variety of potential uses for its customers. Each unit features the optimum storage, fluid, seating and sleeping capabilities. Though the customer enjoys this potential, he/she also has the responsibility to select the proper combinations of loads without exceeding the chassis weight capacities.

New Pace Arrow Features For 2000

Our engineering may set us apart from the rest. But the things you'll notice most, when you and your family take a trip, are the top-of-the-line features. This year we have, once again, added to an already large list of features with the following:

- **Fiberglass Rear Cap**
- **Water Spouts at Drip Rail**
- **Toilet Tank "Sani-flush" System**
- **Plank Wood Flooring Option in Galley**
- **High Line Utility Compartment**
- **Leather Driver and Passenger Seat Option with Power Driver**
- **Porcelain Toilet**
- **Bonded Windshield Technology**
- **CB Radio Ready with Antenna Option**

The Power Platform II Makes The Difference

Pace Arrow's quality begins long before the features come on board. We begin by building on our exclusive Power Platform II, a unique truss design welded together using tubular steel that's durable, strong, and dependable. The result is a quiet and nearly flawless ride, increased floor strength, and substantially more storage space below. An all-steel foundation further reduces stress loads on the sidewalls and minimizes chassis flex on uneven roads.

Drawing is for illustrative purpose only to highlight aspects of motor home construction. Actual motor home design depends on model and is subject to change.

All exterior compartments are reinforced with substantial steel outriggers for increased durability and years of cargo carrying.

Easy access compartments let you get to your Pace Arrow's batteries and dual-battery charge control.

Full basement construction maximizes space beneath the floor, encloses the heated water tanks, and provides easy-to-reach, pass-through storage.

The floor is a vacuum-bonded composite of steel tubing, foam insulation, and marine-grade plywood cut to our exact specs for lightweight strength and resistance to moisture.

1. GVWR (Gross Vehicle Weight Rating): Means the maximum permissible weight of this motor home. The GVWR is equal to or greater than the sum of the unloaded vehicle weight plus the net carrying capacity.
2. GAWR (Gross Axle Weight Rating): Means the maximum permissible loaded weight a specific axle is designed to carry.
3. Base Weight: Means the weight of the motor home without fuel, options, water, cargo, or passengers.
4. GCWR (Gross Combination Weight Rating): Means the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed trailer or towed vehicle. Towing and braking capacities may differ. Refer to Fleetwood and chassis manufacturer manuals for complete information.
